

# Download File PDF Exam Builder Ocr A Level

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

The screenshot shows a user interface for 'Exam Builder Ocr A Level'. At the top, it says 'Overview of First half autumn term' with a 'Back to builder' button and a 'Print scheme' button. Below this, there are two main sections: 'Week 1' and 'Week 2'. Each week section has three columns: 'Statements', 'Teaching activities', and 'Notes'.  
Week 1 Statements:  
- Recognise and use equivalence between simple fractions and mixed numbers. Example:  $\frac{2}{6} = \frac{1}{3}$ ,  $\frac{1}{2} = \frac{2}{4}$ ,  $\frac{1}{2} = \frac{5}{10}$ .  
- Add, subtract, multiply and divide simple fractions (proper and improper), including mixed numbers and negative fractions. Example:  $\frac{1}{6} + \frac{1}{3} = \frac{2}{6} + \frac{2}{6} = \frac{4}{6} = \frac{2}{3}$ ,  $\frac{5}{6} - \frac{1}{3} = \frac{5}{6} - \frac{2}{6} = \frac{3}{6} = \frac{1}{2}$ ,  $3 \times \frac{4}{5}$ .  
Week 1 Teaching activities:  
- Fractions (General): The 'Fractions (General)' resource contains one maths class exploring what it means to be a fraction and equivalence. This is from the National STEM Centre website resource and free to use, but a login is required.  
Week 1 Notes:  
- This week is the first part of the half term dedicated to fractions. Subsequent weeks will build upon the learning outcomes used here.  
Week 2 Statements:  
- Calculate a fraction of a quantity. Example:  $\frac{2}{5}$  of £3.50.  
- Express one quantity as a fraction of another.  
Week 2 Teaching activities:  
- Peaches Today, Peaches Tomorrow: This NRICH problem offers plenty of practice in calculating fractions of objects while ensuring learners to come up with problem solving strategies. It offers a good context for thinking about factors of numbers.  
Week 2 Notes:  
- No notes added.
