

Download File PDF The Complete A2 Level Biology Student Pass Guide And Revision Notes

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

4. Arrived from another planet on asteroid	- arrived from another planet on asteroid
2 ways to investigate respiration	1. Measure rate of CO ₂ production - turns limewater cloudy 2. Measure rise in temperature (respiration releases heat)
3 different types of digestive enzymes	Amylase, protease and lipase
3 types of animal tissue and their roles	Muscular - contracts to bring about movement Glandular - produces substances like enzymes and hormones Epithelial - covers some areas of the body
4 types of plant tissue and their roles	Epidermal - covers the plant Mesophyll - contains chloroplasts for photosynthesis Xylem - transports water and mineral ions around plant Phloem - transports sugars around plant
4 uses of energy from respiration	- building larger molecules from smaller ones (e.g. building sugars, ribases & other nutrients into amino acids then proteins) - enabling muscle contraction - maintaining constant body temperature - hard parts of animal (teeth, bones etc) don't decay
